

UF Health Neuro-Oncology Requested Patient Information

Please arrange for the following information to be sent to the UF Health Neuro-Oncology office.
An appointment can only be scheduled once all of the following items are received:

DEMOGRAPHIC INFORMATION

INSURANCE INFORMATION

MEDICAL INFORMATION relative to your brain tumor (as applicable):

- Operative report(s)
- Discharge summaries from previous hospitalizations
- Most recent Clinic Visit Notes
- Previous pathology report
- (If the patient had surgery at an outside facility, we have to obtain the pathology slides from that facility to be read by our pathologists!)
- Radiology Report
- Chemo Therapy Administration

CDs of your last two MRI scans, with Radiology Report

If you have a newly diagnosed brain tumor, please send the pre-operative scans and the post-operative scans.

If you have already been treated for a brain tumor, and have now been told that your tumor is growing, please send at least the last two scans that show growth.

NOTE: In addition, if you have a high-grade tumor, we will need an MRI scan done within 2-3 weeks of your visit. If you have a low-grade tumor, we will need an MRI scan done within a month of your visit.
